## Innovative Teaching Methodologies in Hospitality Schools for Inclusive Education

## ABOUT THE PROJECT

The InTeam4IEd project aims to support teachers and tutors in dealing with developmental challenges associated with ASD students of post-secondary (initial) VET in the hospitality sector, as well as to assist them in acquiring expendable skills both within the education system and externally in the hospitality industry.

Inclusive education of people with Special Educational Needs (SEN) is often framed in terms of human rights or justice. Notwithstanding, the economic dimension for educating people with disabilities is also very relevant. Lack of appropriate education remains the key risk factor for poverty and exclusion of any person, whether they are disabled or not.

This project follows a follow a step-by-step methodology based on the Plan-Do-Check-Act Cycle (PDCA) to create a ground-breaking Flexible and Hybrid Educational Methodology and Tools (F.H.E.M.T.) for teachers to assist ASD students in gaining new sector-specific competencies, and also an educational application, which will integrate the F.H.E.M.T., and the related operational guidelines for teachers, students and families.

I.I.S. «V. CROCETTI – V. CERULLI» is one of the most important schools in the province of Teramo and in the whole region. It is divided into three different types of schools: I.T.T. «V. CERULLI», a 5-year technical-technological school; I.P.S.I.A. «R. PAGLIACCETTI», a 5-year crafts and industry vocational school; I.P.S.E.d.O.C. «V. CROCETTI», a 5-year hotel management vocational school. The 3 schools have many special needs students and many other students that are not native speakers, in particular in the two vocational schools and they are about 10% of the school population. All 3 schools strongly believe in the relevance of a practice-based education and promote exchanges and cooperation with the outside society, in order to give students the possibility to come into contact with the labour market.

ASOCIACIÓN FRESS is a private non-profit association oriented to the research and conduct of studies of a social and health nature of European scope based in Barcelona. ## Consortium

SPEL is a society of teachers and psychologists formed in 1990, which created a network of schools that focus on the support of vulnerable communities - circa 2/3 of the SPEL students/trainees are under risk of socio-economic exclusion. Its aim is to boost the socio-economic condition of children, youngsters and adults from these communities by teaching/training and by coaching, which is achieved by applying innovative psycho-socio-pedagogic approaches for the transfer of skills highly valued in the labour market. The main principle of action of SPEL is the innovation of the psycho-pedagogic approaches to support the students/trainees and the engagement of all school staff in providing case-to-case solutions to the problems of the students. SPEL covers all age groups, being active both in adult education, education of youth and of children.

**PORTUGAL**

Militos Consulting S.A. is a unique, dynamic, and innovative 360 consultancy firm, with a strong European profile, international experience, and many distinctions in the provision of integrated and ground-breaking consultancy services in a wide spectrum of fields, including Skills Empowerment, Education, Vocational Education and Training (VET), Entrepreneurship Education, Communication, Community Building and Awareness Measures, Event Management, Social Innovation, Culture, etc.

## KOM – ROME, ITALY

*May 2022*

On the 30th and 31st of May 2022 the Kick-off Meeting of the newly approved European project InTeaM4IEd took place in Rome, in face-to-face modality.

The KOM marked the official start of the project. We were able to prepare the first results of the project and discuss the upcoming activities!

## Skills and Competences Model

InTeaM4IEd Project proposes to help teachers and tutors to face learning difficulties related to ASD (Autism Spectrum Disorder) students of initial VET in the hospitality sector and to support them in developing expendable skills within the education system and externally in the hospitality industry. In the framework of PR1/A1, up-to-date information on the most relevant emerging skills and competencies required by the hospitality industry was collected by through semi-structured interviews with sector experts in the respective Partner countries. As a result, the following 15 key emerging competences in the field (competency mapping) have been identified and selected to be further explored into the PR1/A2 comprehensive Skills and Competences Model:

### Communication skills and competences:

- Social interaction
- Personal communication
- Interpersonal communication

### Socio-emotional skills and competences:

- Emotional control
- Problem solving and resolution capability
- Self-confidence
- Team working

### Self-management skills and competences:

- Flexibility
- Resilience
- Concentration
- Stress management
- Noise management
- Time management

### Technical skills and competences:

- Digital skills
- Green skills

Such a model will be exploited by teachers, trainers and educators of formal and non-formal education and will benefit VET students, especially ASD students under disadvantaged circumstances, facilitating the creation of new forms of work and boosting cross-border opportunities.
